

PolyBlade™

FLEETAERO®

Driving Your Fleet Forward

FUEL SAVINGS/DRAG REDUCTION:

.50 DELTA CdA

LENGTH:	18'
HEIGHT:	32"
WEIGHT:	128 LBS.
PANEL:	CONTINUOUS FIBER-REINFORCED POLYPROPYLENE COMPOSITE
STRUT:	POLYBLADE STRUT. HYBRID WITH STEEL HEAD AND FIBER-REINFORCED NYLON CHANNEL. FIBER COMPOSITE SPRING

At 128 lbs., PolyBlade™ is one of the lightest side skirts available in the market. This latest addition to the FleetAero™ family of aerodynamic products is built to be as durable as all our brands and **priced competitively for any business.**

PolyBlade™ Struts

PolyBlade™ Struts' hybrid design matches the strength and durability of TrailerBlade™ HD strut with 60% less weight. With its patented design and custom formulation, the polymer channel is virtually indestructible, and the steel head allows mounting of any skirt to any trailer, making it the first and only universal strut on the market.

10-YEAR WARRANTY

FleetAero® side skirts are now available with FleetAero® warranty. For more information, please visit Fleetaero.com/warranty
