

ECOCAPS

DESIGN & SPECIFICATIONS

MATERIAL:	SUPERIOR, IMPACT-RESISTANT, AND CHEMICALLY DURABLE NYLON POLYMER
CHEMICAL RESISTANCE:	NOT AFFECTED BY DIESEL FUEL, MOTOR OIL, OR COOLANT
WEIGHT:	<2 LBS. PER CAP
CIRCUMFERENCE:	22.5"
INSTALLATION:	NO HARDWARE REQUIRED

Made from a superior, impact-resistant, and chemically durable nylon polymer, ECOCAPS quality is unrivaled in the aerodynamic wheel covers market. They require no tools for installation or removal. They simply snap onto the wheel rim through our patented grip tab technology and can be effortlessly removed by hand releasing the tab. Extensively tested and independently verified, they deliver proven fuel savings of over 1% on 53ft skirted trailers and an impressive 1.85% on skirted 28ft trailers. That's \$815 - \$1508 in savings per trailer per year.* ECOCAPS are compatible with 22.5" steel wheels.

*Calculations based on average annual fuel expense of \$81,538 (125,000 miles year / average MPG of 6.5 x diesel price of \$4.24/gallon)

2-YEAR WARRANTY

FleetAero® ECOCAPS are now available with FleetAero® warranty. For more information, please visit Fleetaero.com/warranty
